**Dedicated to
Environmental
Protection !**

UNIBAG is committed to the protection of Earth's resources through recycling and the promotion of using paper as a renewable, sustainable resource replacing the excess use of plastic products which are irreversibly polluting both land and sea. We recycle 100% of our paper waste and are making committed efforts towards using recycled paper in the making of our bags.

ABOUT US

BRIEF OVERVIEW

History of Experience & Success !

We are a direct manufacturer of eco-friendly packaging. Thanks to over 40 years of experience, we provide a brand that satisfies even the most demanding clients out there. From day one, our company strives to use eco-friendly raw material as a sign of gratitude and appreciation towards our planet.

The story goes back to 1979 when Katra Press started as a family business. The company was specialized in the production of Luxury shopping bags and carton packaging. With the market trends changing towards eco-friendly products, and the consumers preference shifting to more versatile and economical packaging solutions, UNIBAG was established in 2001, with a field of specialty focusing on paper shopping bag. With a customer base spreading throughout the Middle East and in order to better serve GCC countries, Unibag Paper Products Industry LLC-UPPI was established as a manufacturing facility in Dubai. Our Motto is: "Maintaining high technical services and standards that are up-to-date with the latest innovations and best practices in the industry".

We are specialized in the production of eco-friendly shopping bags and carton packaging. Our mission is to manufacture "Packaging Essentials" that will satisfy even the most demanding clients, using environmentally friendly material.

CORE VALUES OF OUR COMPANY

OUR VISION

Protect Earth's resources through recycling and promoting the use of paper as a renewable, sustainable resource in replacement of the excess use of plastic products that are irreversibly polluting both land and sea.

OUR MISSION

Manufacture sustainable eco-friendly packaging solutions, made from renewable and recycled resources, and compliant with the world's standards for environmentally appropriate, socially beneficial and economically viable products.

INNOVATIVE PACKAGING

Our expertise at your service so that together we can design tomorrow's packaging.

GUARANTEED QUALITY

Certification of quality products that meet your needs. A guarantee of quality in constant flux.

DELIVERY DEADLINES

Optimization of our scheduling so that we can deliver your orders within the desired time period.

SUPPORT & SERVICE

Always attuned to your requests to help you solve all problems without delay.

Unibag is committed to the protection of Earth's resources through recycling and promoting the use of paper as a renewable, sustainable resource in replacement of the excess use of plastic products that are irreversibly polluting both land and sea. We recycle 100% of our paper waste and continuously exert committed efforts towards using recycled paper in the making of our bags. Along with our valued business partners, our combined efforts are assisting in protecting the environment and our planet.

WHY CHOOSE US

We are one of the few entities that manufacture quality products with customized logos. We can produce any complicated design using state of the art machinery and techniques. As a result, the “UNIBAG” packaging is not only eco-friendly, but also aesthetic.

Personalized Approach

Once the job is received, a thorough consultation is preformed to cover the design, production and delivery date. Once the requirements are shared, such as the basic parameters of the package-order, our team prepares a sample design with a price estimate and delivery timeline. Our warehouse and distribution teams can arrange for all delivery types from full loads right down to just one box.

Professional Team

We strive for our services to be comprehensive, modern and professional. You will receive all information about production, printed designs and paper from the Commercial Department, composed of members with many years of experience. Our logistics team can manage all your export shipment operations to any destination in the world.

We have a long-standing industrial experience combined with valuable human and technical capital, which allowed us to expand our customer base to cover Middle East, North Africa and the CIS regions thus being a significant anchor in the packaging market.

We are proud to offer our clientele an effective combination of highly experienced staff and the highest quality of products and solutions.

CERTIFICATIONS

The mark of
responsible forestry

FSC™ CERTIFICATION

In 2011, we became Forest Stewardship Council™ (FSC™) certificate holder. The FSC™ promotes environmentally appropriate, socially beneficial and economically viable management of the world's forest. FSC™ unique role is to bring together people, organization and business to develop consensus-based solutions that promote responsible stewardship of the world's forests.

Our certification from the FOREST STEWARDSHIP COUNCIL™ (FSC™) reflects Unibag's dedication to this initiative.

ISO 22000:2005 Food Safety Management System Certification

Unibag was certified in December 2018 to operate a Food Safety Management System which complies with the requirements of ISO 22000:2005 incorporating the principles of HACCP and currently holds an ISO 22000:2005 Certificate of Registration from SMG (Sustainable Management Group) – Canada.
